

# Commercial Security Safe

The AMSEC **CSC SERIES COMPOSITE SAFES** are an affordable solution when you want to protect both documents from fire and valuables from burglary attacks. During extreme testing procedures the **CSC SERIES COMPOSITE SAFES** passes a 2-Hour, 350°F factory fire test certification.

CSC1413

*Interior Temperature less than 350° for a period of 1 Hour at 1750°F*

## Door:

- Overall thickness of 4-5/8" and is constructed with a 2" defense barrier of outer and inner steel plates creating a single structure enclosing a unique, high-density fire and burglary resistant composite material.
- Defense barrier houses a proprietary amalgamation of nuggets and steel fibers to withstand concentrated attacks with the most sophisticated equipment used by burglars today.

## Body:

- Total protective thickness of 2-7/8" enclosing a high-density burglary and fire resistant composite material with nuggets and steel fibers.
- High strength adjustable shelves.

## Fire Endurance:

- Two hour, 350°F factory fire rating. Tested at temperatures up to 1700°F.
- Fire gasket surrounding the entire door jamb.

## Locking Mechanism:

- 2-4 massive 1-1/2" diameter solid steel chrome-plated locking bolts.
- 2-4 solid steel dead bolts lock deep into body preventing door removal during a forced entry attempt.
- Lock protected by a tempered glass relock device.
- Heavy duty steel hinges provide easy smooth door operation.
- One internal counter-sunk anchor hole and mounting hardware are provided to securely anchor safe.
- Attractively accented with a full width facia panel, matching three point handle.
- Durable and attractive Charcoal gray textured finish.
